

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
Rec	- Count reliably with numbers from one to 20 and place them in order. - Say which number is one more or one less than a given number up to 10. - Select the correct numeral to represent 1 to 10 objects. - Count an irregular arrangement of up to ten objects. - Estimate how many objects there are and check by counting them. - Use the language of 'more' and 'fewer' to compare two sets of objects. - Say the number that is one more than a given number. - Find one more or one less from a group of up to ten objects. - Record, using marks that can be interpreted and explained by them.	- Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer. - Solve problems, including doubling, halving and sharing. - Find the total number of items in two groups by counting all of them. - In practical activities and discussion, begin to use the vocabulary involved in adding and subtracting. - Begin to identify own mathematical problems based on own interests and fascinations.		- Use mathematical names for 3D shapes and 2D shapes, and mathematical terms to describe shapes. - Select a particular named shape. - Measure short periods of time in simple ways. Describe their relative position such as 'behind' or 'next to'.	- Order two or three items by length or height. - Order two items by weight or capacity. - Use familiar objects and common shapes to create and recreate patterns and build models. - Use everyday language related to time. - Begin to use everyday language related to money. Order and sequences familiar events.
Year 1	- Count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number - Count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens - Given a number, identify one more and one less - Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than, most, least - Read and write numbers from 1 to 20 in numerals and words	- Read, write and interpret mathematical statements involving addition (+), subtraction (−) and equals (=) signs - Represent and use number bonds and related subtraction facts within 20 - Add and subtract one-digit and two-digit numbers to 20, including zero - Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems - Make connections between arrays, number patterns, and counting in 2s, 5s and 10s - Solve one-step problems involving multiplication and division, by calculating the answer	- Recognise, find and name a half as one of two equal parts of an object, shape or quantity - Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity.	- Recognise and name common 2-D and 3-D shapes, including: 2-D shapes [e.g. rectangles (including squares), circles and triangles] 3-D shapes [e.g. cuboids including cubes), pyramids and spheres]. - Describe position, direction and movement, including whole, half, quarter and three quarter turns.	- Compare, describe and solve practical problems for: - lengths and heights (e.g. long/short, longer/shorter, tall/short, double/half) - mass or weight (e.g. heavy/light, heavier than, lighter than) - capacity/volume (full/empty, more than, less than, half, half full, quarter) - time (quicker, slower, earlier, later) - Measure and begin to record the following: - lengths and heights - mass/weight - capacity and volume

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
		using concrete objects, pictorial representations and arrays with the support of the teacher.			- time • Recognise and know the value of different denominations of coins and notes • Sequence events in chronological order using language • Recognise and use language relating to dates • Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.
Year 2	• count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward • Recognise the place value of each digit in two-digit numbers (tens and ones) • Identify, represent and estimate numbers using different representations, including the number line • Compare and order numbers from 0 up to 100: use <, > and = signs • Read and write numbers to at least 100 in numerals and in words • Use place value and number facts to solve problems	• Solve problems with addition and subtraction: - using concrete objects and pictorial representations, including those involving numbers, quantities and measures - applying their increasing knowledge of mental and written method • Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 • Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: - a two-digit number and ones - a two-digit number and tens - two two-digit numbers - adding three one-digit numbers • Show that addition of two numbers can be done in any order (commutative) and	• Recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity • Write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of two quarters and one half	• Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line • Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces • Identify 2-D shapes on the surface of 3-D shapes, [e.g. a circle on a cylinder and a triangle on a pyramid] • Compare and sort common 2-D and 3-D shapes and everyday objects • Order and arrange combinations of mathematical objects in patterns and sequences • Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line	• Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature ($^{\circ}\text{C}$); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels • Compare and order lengths, mass, volume/capacity and record the results using >, < and = • Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value • Find different combinations of coins that equal the same amounts of money

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
		subtraction of one number from another cannot - Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems - Recall and use multiplication and division facts for the 2, 3, 4, 5 and 10 multiplication tables, including recognising odd and even numbers - Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division (÷) and equals (=) signs - Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot - Solve one-step problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts		and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise).	- Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change - Compare and sequence intervals of time - Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times - Know the number of minutes in an hour and the number of hours in a day. - Interpret and construct simple pictograms, tally charts, block diagrams and simple tables - Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity - Ask and answer questions about totalling and comparing categorical data
Year 3	- Count from 0 in multiples of 4, 8, 50 and 100 - Finding 10 or 100 more or less than a given number - Recognise the place value of each digit in a three-digit number (hundreds, tens, ones) - Compare and order numbers up to 1000	- Add and subtract numbers mentally, including: - a three-digit number and ones - a three-digit number and tens - a three-digit number and hundreds - Add and subtract numbers with up to three digits, using the efficient written methods of	- count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 - Recognise, find and write fractions of a discrete set of	- Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them - Recognise angles as a property of shape or a description of a turn	- Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml) - Measure the perimeter of simple 2-D shapes - Add and subtract amounts of money to give

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
	- Identify, represent and estimate numbers using different representations - Read and write numbers to at least 1000 in numerals and in words - Solve number problems and practical problems involving these ideas	- columnar addition and subtraction - Estimate the answer to a calculation and use inverse operations to check answer - Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction - Recall and use multiplication and division facts for the 6, 7, 8 and 9 multiplication tables - Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two digit numbers times one-digit numbers, using mental and progressing to efficient written methods - Solve problems, including missing number problems, involving multiplication and division, including integer scaling problems and correspondence problems in which n objects are connected to m objects	- objects: unit fractions and non-unit fractions with small denominators - Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators - Recognise and show, using diagrams, equivalent fractions with small denominators - Add and subtract fractions with the same denominator within one whole (e.g. $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$) - Compare and order unit fractions, and fractions with the same denominators - Solve problems that involve all of the above.	- Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle - Identify horizontal and vertical lines and pairs of perpendicular and parallel lines.	- change, using both £ and p in practical contexts - Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks - Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight - Know the number of seconds in a minute and the number of days in each month, year and leap year - Compare durations of events [for example to calculate the time taken by particular events or tasks]. - Interpret and present data using bar charts, pictograms and tables - Solve one-step and two-step questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
Year 4	- Count in multiples of 6, 7, 9, 25 and 1000 - Find 1000 more or less than a given number - Count backwards through zero to include negative numbers - Recognise the place value of each digit in a four-digit number(thousands, hundreds, tens, and ones) - Order and compare numbers beyond 1000 - Identify, represent and estimate numbers using different representations - Round any number to the nearest 10, 100 or 1000 - Solve number and practical problems that involve all of the above and with increasingly large positive numbers - Read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit - Count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 - Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers through zero - Round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000 - Solve number problems and practical problems that involve all of the above - Read Roman numerals to 1000 (M) and recognise years - Read, write, order and compare numbers up to 10 000 000 and determine the value of each digit	- Add and subtract numbers with up to 4 digits using the efficient written methods of columnar addition and subtraction where appropriate - Estimate and use inverse operations to check answers to a calculation - Solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why - Recall multiplication and division facts for multiplication tables up to 12×12 - Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers - Recognise and use factor pairs and commutativity in mental calculations - Multiply two-digit and three-digit numbers by a one digit number using formal written layout - Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder multiplication problems such as which n objects are connected to m objects	- Recognise and show, using diagrams, families of common equivalent fractions - Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. - Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number - Add and subtract fractions with the same denominator - Recognise and write decimal equivalents of any number of tenths or hundredths - Recognise and write decimal equivalents to $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$ - Find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths - Round decimals with one decimal place to the nearest whole number - Compare numbers with the same number of decimal places up to two decimal places	- Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes - Identify acute and obtuse angles and compare and order angles up to two right angles by size - Identify lines of symmetry in 2-D shapes presented in different orientations - Complete a simple symmetric figure with respect to a specific line of symmetry. - Describe positions on a 2-D grid as coordinates in the first quadrant - Describe movements between positions as translations of a given unit to the left/right and up/down - Plot specified points and draw sides to complete a given polygon.	- Convert between different units of measure [e.g. kilometre to metre; hour to minute] - Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres - Find the area of rectilinear shapes by counting squares - Estimate, compare and calculate different measures, including money in pounds and pence - Read, write and convert time between analogue and digital 12- and 24-hour clocks - Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days - Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs. - Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
	- Round any whole number to a required degree of accuracy - Use negative numbers in context, and calculate intervals across zero - Solve number problems and practical problems that involve all of the above. - Read Roman numerals to 100 (I to C) and understand how, over time, the numeral system changed to include the concept of zero and place value.		Solve simple measure and money problems involving fractions and decimals to two decimal places.		
Year 5	- Read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit - Count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 - Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers through zero - Round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000 - Solve number problems and practical problems that involve all of the above - Read Roman numerals to 1000 (M) and recognise years written in Roman numerals	- Add and subtract whole numbers with more than 4 digits, including using efficient written methods (columnar addition and subtraction) - Add/subtract numbers mentally with increasingly large numbers - Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy - Solve addition and subtraction multistep problems in contexts, deciding which operations and methods to use and why - Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers - Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers - Establish whether a number up to 100 is prime and recall prime numbers up to 19 - Multiply numbers up to 4 digits by a one or two-digit number using a formal written method,	- Compare and order fractions whose denominators are all multiples of the same number - Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths - Add and subtract fractions with the same denominator and denominators that are multiples of the same number - Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements >1 as a mixed number (e.g. $2/5 + 4/5 = 6/5 = 11/5$) - Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams - Read and write decimal numbers as fractions (e.g. $0.71 = 71/100$)	- Identify 3-D shapes, including cubes and other cuboids, from 2-D representations - Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles - Draw given angles, and measure them in degrees ($^{\circ}$) - Identify: - angles at a point and one whole turn (total 360°) - angles at a point on a straight line and $1/2$ a turn (total 180°) - other multiples of 90° - Use the properties of rectangles to deduce related facts and find missing lengths and angles - Distinguish between regular and irregular polygons based on reasoning about equal sides and angles. - Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and	- Convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre) - Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints - Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres - Calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm^2) and square metres (m^2) and estimate the area of irregular shapes - Estimate volume [e.g. using 1 cm^3 blocks to

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
		including long multiplication for two-digit numbers • Multiply and divide numbers mentally drawing upon known facts • Divide numbers up to 4 digits by a one-digit number using the efficient written method of short division and interpret remainders appropriately for the context • Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000 • Recognise and use square numbers and cube numbers, and the notation for squared and cubed • Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes • To solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign • To solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates	• Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents • Round decimals with two decimal places to the nearest whole number and to one decimal place • Read, write, order and compare numbers with up to three decimal places • Solve problems involving number up to three decimal places • Recognise the per cent symbol (%) and understand that per cent relates to “number of parts per hundred”, and write percentages as a fraction with denominator hundred, and as a decimal fraction • Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those with a denominator of a multiple of 10 or 25	know that the shape has not changed.	build cuboids (including cubes)] and capacity [e.g. using water] • Solve problems involving converting between units of time • Use all four operations to solve problems involving measure [e.g. length, mass, volume, money] using decimal notation, including scaling. • Solve comparison, sum and difference problems using information presented in a line graph • Complete, read and interpret information in tables, including timetables.
Year 6	• Read, write, order and compare numbers up to 10 000 000 and determine the value of each digit • Round any whole number to a required degree of accuracy • Use negative numbers in context, and calculate intervals across zero	• Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the efficient written method of long multiplication • Divide numbers up to 4 digits by a two-digit whole number using the	• Use common factors to simplify fractions; use common multiples to express fractions in the same denomination	• Draw 2-D shapes using given dimensions and angles • Recognise, describe and build simple 3-D shapes, including making nets • Compare and classify geometric shapes based on	• Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
	Solve number problems and practical problems that involve all of the above.	formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context - Divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context - Perform mental calculations, including with mixed operations and large numbers - Identify common factors, common multiples and prime numbers - Use their knowledge of the order of operations to carry out calculations involving the four operations - Solve addition and subtraction multistep problems in contexts, deciding which operations and methods to use and why - Solve problems involving addition, subtraction, multiplication and division - Use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy	- Compare and order fractions, including fractions >1 - Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions - Multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $1/4 \times 1/2 = 1/8$) - Divide proper fractions by whole numbers (e.g. $1/3 \div 2 = 1/6$) - Associate a fraction with division to calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $3/8$) - Identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places - Multiply one-digit numbers with up to two decimal places by whole numbers - Use written division methods in cases where the answer has up to two decimal places - Solve problems which require answers to be rounded to specified degrees of accuracy. - Recall and use equivalences between simple fractions, decimals and percentages,	their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons - Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius - Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles. - Describe positions on the full coordinate grid (all four quadrants) - Draw and translate simple shapes on the coordinate plane, and reflect them in the axes.	- Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places - Convert between miles and kilometres - Recognise that shapes with the same areas can have different perimeters and vice versa - Recognise when it is possible to use formulae for area and volume of shapes - Calculate the area of parallelograms and triangles - Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm^3) and cubic metres (m^3), and extending to other units [e.g. mm^3 and km^3]. - Interpret and construct pie charts and line graphs and use these to solve problems - Calculate and interpret the mean as an average. - Use simple formulae

Year Group	Threshold Concept				
	Block A: Number (Place Value)	Block B: Number (Four Operations)	Block C: Fractions , Decimals, Percentages, Ratios and Proportions	Block D: Position and Direction, Properties of Shape	Block E: Data Handling, Algebra and Measures
			including in different contexts - Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts - Solve problems involving the calculation of percentages [e.g. of measures, and such as 15% of 360] and the use of percentages for comparison - Solve problems involving similar shapes where the scale factor is known or can be found - Solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.		- Generate and describe linear number sequences - Express missing number problems algebraically - Find pairs of numbers that satisfy an equation with two unknowns - Enumerate possibilities of combinations of two variables.
